

## Encounter Latin Series Information

The *Encounter Latin* novella series is designed to engage and delight novice and intermediate Latin learners with comprehensible stories written entirely in Latin. Focusing on a range of subjects related to antiquity, these books feature limited, high-frequency vocabulary alongside ample illustrations and other text supports. Each novella in the series is grouped by topic; within a given topic, novellas progress step-by-step in language complexity across four different levels while building on established concepts and vocabulary. The four levels correspond to the following guidelines:

- **Level A (green cover):** 100–150 unique Latin words
- **Level B (blue cover):** 150–200 unique Latin words
- **Level C (red cover):** 200–250 unique Latin words
- **Level D (purple cover):** 250+ unique Latin words

Ideal for independent reading or to introduce aspects of ancient culture in the classroom, each novella in the *Encounter Latin* series can be read as a stand-alone text or alongside other levels as part of a more extensive exploration of a given topic. The *Encounter Latin* novellas also coordinate with the nonfiction pre-readers in the *Explore Latin* series.
