

## Bolchazy-Carducci Publishers Canvas

Using best practices Bolchazy-Carducci Publishers designed the *Lumina* content as a universal style syllabus, by chapter/book. Providing a chapter/book overview layout with exercises listed in the order they are presented in the textbook.

While a universal style syllabus is the best practice to provide online graded content to multiple users/schools, there are limitations with the universal style setup.

- Teachers can not add content to the B-C Canvas course
- Teachers need to use an external method to assign the *Lumina* exercises
- Teachers need to export student grades from B-C Canvas and enter grades into their gradebooks

The screenshot shows the Canvas LMS dashboard for Bolchazy-Carducci Publishers Lumina. The top navigation bar includes a hamburger menu, the site name 'B-C Lumina', the language 'ENGLISH (EN)', and notification icons. The left sidebar contains navigation links: Home, Dashboard (highlighted), Calendar, Private files, Content bank, My courses, A/L Level 1, A/L Level 1 Sample Course, A/L Level 2, Lumina: LNM Level 2, Caesar and Vergil Selections, Introduction to Moodle, and Site administration.

The main content area is titled 'Course overview' and features a dropdown menu set to 'All (except removed from view)'. There are two filter buttons: 'Course name' and 'Card'. The course overview is displayed in a grid of six cards, each representing a course with its title, progress bar, and completion percentage.

**LATIN** FOR THE NEW MILLENNIUM

Latin for the New Millennium interactive exercises provide an additional study aid for the content of the printed textbook or eBook.

These exercises are designed to reinforce lessons taught in the books and are labeled with the corresponding textbook page number for reference.

For each chapter there are additional practice exercises in the sidebar. These are more in-depth questions to allow for further student review. The exercises are automatically graded for the teacher.

Teachers using this interactive platform will have more in-class time to focus on discussion, translation, and comprehensible input activities.
