

How do teachers and students access *Lumina*?

Lumina is available for individual learners and for classrooms.

- For individuals and classrooms not using a school learning management system, *Lumina* is available from Bolchazy-Carducci Publishers Canvas site.
- For classrooms with a school LTI link compatible, learning management system LTI links are provided for the *Lumina* content. (Google Classroom does not support LTI and Moodle 4.3 through current versions does not support Lumina's "Per Instance LTI Linking")
